Treasury Financing Operations

March and April Certificate, Note, and Bond Maturities

On February 14, 1950, the Secretary of the Treasury announced that new issues of Treasury notes would be offered in exchange for the four marketable securities, other than Treasury bills, maturing in March and April. The announcement stated that 1-1/4 percent Treasury notes to mature on July 1, 1951 would be offered to refund the issues of 1-1/4 percent certificates of indebtedness maturing on March 1, and April 1, 1950; and that an issue of 1-1/2 percent Treasury notes to mature on March 15, 1955, would be offered to refund the 2 percent Treasury bonds of 1950-52 (dated October 19, 1942) which had been called for redemption March 15, 1950, and the 1-3/8 percent Treasury notes maturing on April 1, 1950. The four maturing securities aggregate \$9,443 million.

Pursuant to the announcement, on February 17 the following offerings were made:

An issue of 1-1/4 percent notes dated March 1, 1950, to mature July 1, 1951, was offered in exchange for the issue of one-year 1-1/4 percent certificates maturing March 1, Series C-1950, in the amount of \$2,922 million.

An issue of 1-1/2 percent notes to be dated March 15, 1950, to mature March 15, 1955, was offered in exchange for the 2 percent Treasury bonds of 1950-52 (dated October 19, 1942) which had been called for redemption on March 15, 1950, and will be reopened in exchange for the 18-1/2 month 1-3/8 percent Treasury notes, Series A-1950, maturing April 1, 1950. The maturing bonds amounted to \$1,963 million and the maturing notes amount to \$3,596 million.

An issue of 1-1/4 percent notes to be dated April 1, 1950, to mature July 1, 1951, will be offered in exchange for the issue of one-year 1-1/4 percent certificates maturing April 1, 1950.

Pursuant to the announcement, subscription books were opened on February 17, for the new 1-1/4 percent Treasury notes, Series B-1951, in exchange

for the 1-1/4 percent certificates maturing March 1, and for the new 1-1/2 percent Treasury notes, Series A-1955, in exchange for the 2 percent Treasury bonds of 1950-52 (dated October 19, 1942). The subscription books were closed at the close of business February 21. Exchanges were made par for par, and cash subscriptions were not received. Both securities were issued in bearer form only, and in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. Neither issue is subject to call for redemption before maturity.

The notes of Series B-1951 are dated March 1, 1950, and bear interest from that date at the rate of 1-1/4 percent per annum, payable on a semiannual basis on January 1 and July 1, 1951. They will mature July 1, 1951.

The notes of Series A-1955 are dated March 15, 1950, and bear interest from that date at the rate of 1-1/2 percent per annum, payable semiannually on September 15, 1950, and thereafter on March 15 and September 15 in each year until the principal amount becomes payable. They will mature March 15, 1955.

Reports to the Treasury on the ownership of Government securities indicate that on December 31, 1949, about 58 percent of the maturing certificates and about 78 percent of the called bonds were owned by reporting commercial banks and Federal Reserve Banks. The ownership figures for December 31 are the latest available for the holdings of commercial banks.

Subscriptions to the new 1-1/4 percent Treasury notes, Series B-1951, amounted to \$2,741 million, leaving \$180 million to be paid in cash. Subscriptions to the new 1-1/2 percent Treasury notes, Series A-1955, amounted to \$1,860 million, leaving \$103 million to be paid in cash.

Treasury Bills Refunded

Treasury bills maturing in February were refunded in the full amount of \$4.0 billion. Each maturity and each offering was for \$1,000 million. The average rates of discount on the four new issues were for February 2 and 9, 1.119 percent, for February 16, 1.131 percent, and for February 23, 1.132 percent.

Note: Details of Treasury market financing operations are shown in the tables on "Offerings" and "Disposition", respectively, of marketable issues of bonds, notes,

and certificates of indebtedness, and in the table "Offerings of Treasury Bills", in this issue of the "Treasury Bulletin".

1/ Both receipts and expenditures exclude (1) refunds of receipts and (2) payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and for disposition of earnings.

2/ Gross receipts less appropriations to Federal Old-Age and Survivors Insurance Trust Fund and refunds of receipts (see "Budget Receipts and Expenditures", Table 1).

3/ To make the figures for the fiscal years 1948 and 1949 comparable with those for other years shown in this table, all transactions relating

to the Foreign Economic Cooperation Trust Fund (established under Section 114 (b) of the Economic Cooperation Act of 1948) have been consolidated with Budget expenditures, beginning with the March 1950 issue of the "Treasury Bulletin".

4/ Consists of: trust accounts; sales and redemptions of securities of Government corporations, etc., in the market (net); increment on gold; seigniorage on silver; and miscellaneous funds and accounts. Figures exclude retirement of national bank notes chargeable against increment on gold (fiscal years 1937-39).

5/ For outstanding checks and telegraphic reports from Federal Reserve Banks; excess of receipts, or expenditures (-).

- 1/ For further detail, see tables under "Internal Revenue Collections".
- 2/ Receipts of Victory taxes withheld pursuant to the Revenue Act of 1942 are classified as "Other" income and profits taxes.
- 3/ Consists of receipts for old-age insurance, unemployment insurance, railroad retirement, and health insurance in the 1951 estimate; for details see Tables 7 and 8 in this section. Excludes railroad unemployment insurance contributions, which are included in "Other receipts".
- 4/ Includes proceeds from sale of surplus property and from Government-owned securities; also deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5).
- 5/ Both budget receipts and budget expenditures exclude payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and for disposition of earnings (see "Treasury Bulletin" for February 1949, page A-2).
- 6/ See Table 7 in this section.
- 7/ Excludes interest on refunds.
- 8/ Allows for deduction of appropriation of \$250 million for Health Insurance Trust Fund, under proposed legislation.
- 9/ In addition to the exclusion of certain payments to the Treasury as indicated in footnote 5, total expenditures shown here exclude refunds of receipts (see Table 1 in this section). Interest on refunds is shown under "Other" expenditures. Budget expenditures also exclude amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law, and include transfers to trust accounts and net expenditures of wholly owned Government Corporations, etc., except payments to the Treasury mentioned above.
- 10/ To make the figures for the fiscal years 1948 and 1949 comparable with those for other years shown in this table, all transactions relating to the Foreign Economic Cooperation Trust Fund (established under Section 114 (b) of the Economic Cooperation Act of 1948) have been consolidated with Budget expenditures, beginning with the March 1950 issue of the "Treasury Bulletin".
- 11/ Beginning November 1, 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing it as an expenditure at the time interest was paid by the Treasurer of the United States. In order to take care of the transition in the basis of reporting, the expenditures for interest in the fiscal year 1950 represent not only the interest which becomes due and payable during that year but also the interest for prior years which had not been presented as of June 30, 1949, for payment by the Treasurer of the United States, amounting to \$225 million.
- 12/ Includes public works undertaken by the Veterans' Administration.
- 13/ See footnote 14/.
- 14/ Includes expenditures on behalf of the Department of the Air Force which are made out of appropriations to the Department of the Army, but excludes expenditures as follows: those shown separately in Table 3; international finance and aid, shown in Table 4; river and harbor work and flood control, included in Table 5 under "Public works"; and Panama Canal. War expenditures of the Panama Canal, all prior to July 1, 1947, are included in Table 3 under "Other"; other expenditures of the Panama Canal are included in Table 5 under "Miscellaneous".
- 15/ Excludes expenditures shown separately in Table 3, and those for international finance and aid, shown in Table 4.
- 16/ Excludes expenditures shown separately in Table 3.
- 17/ Beginning March 1948, includes reimbursement for expenditures by the Departments of the Army and the Navy for care and handling of surplus property overseas.
- 18/ Effective January 1, 1950, certain administrative functions of the General Services Administration were consolidated pursuant to Section 106 of Public Law 152, approved June 30, 1949, and appropriated funds relating to such functions were transferred to and combined in one operating account. Accordingly, expenditures by this agency for surplus property disposal and for public buildings other than construction are not reported separately after that date, and are not included in the totals for these purposes shown in Tables 3 and 5. Figures for the preceding months of the fiscal year 1950 have been revised to a comparable basis.
- 19/ After July 1, 1947, expenditures for national defense and related activities were not segregated from the other expenditures of the Corporation and its affiliates, which are included in Table 5 under "Miscellaneous".
- 20/ For content before July 1948 see "Treasury Bulletin" for September 1948, page 4, and February 1948, page 7, except that beginning with the fiscal year 1947 figures have been revised to include expenditures of the National Advisory Committee for Aeronautics. Prior to July 1949, included all other Federal Works Agency expenditures except those included in Table 3.

Source: Actual figures are based on Daily Treasury Statement; estimates are based on the 1951 Budget document, including effect of proposed legislation as outlined in Budget detail.

2/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the cash budget receipts of the Treasury shown in these tables, but is excluded from the 1951 Budget

document figuree for "Receipts from the public".

3/ In addition to this decrease in the General Fund balance, the Exchange Stabilization Fund was drawn down by \$1,800 million for subscription to the capital of the International Monetary Fund (see footnote 1).

4/ Adjusted for reclassification of Foreign Economic Cooperation Trust Fund transactions; see Tables 3 and 4 in this section.

* Less than \$500,000.

1/ The securities shown in this table were issued to the Treasury to finance Government corporations and certain other business-type activities of the Government, with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

2/ Total for the period September 1947 through September 1949 includes notes amounting to less than \$1 million issued by the Virgin Islands Company. The Company was dissolved and its liabilities were assumed by the Virgin Islands Corporation under the Act of June 30, 1949, which set up the Corporation.

3/ Notes issued under authority of Public Law 146, approved June 29, 1949, and Public Law 171, approved July 15, 1949, for Farmers' Home Administration programs.

4/ Notes issued under authority of Public Law 820, approved June 29, 1948, for Natural Fibre Revolving Fund.

5/ Notes issued by the Reconstruction Finance Corporation and outstanding in the amount of \$9,365 million, including interest, were canceled on June 30, 1948, pursuant to the Government Corporations Appropriations Act, 1949.

STATUTORY DEBT LIMITATION

Section 21 of the Second Liberty Bond Act, as amended, provides that the face amount of obligations issued under authority of that Act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not ex-

ceed in the aggregate \$275 billion outstanding at any one time. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered for sale in March 1935 and began to mature in March 1945. Series A-D were sold from March 1935 to April 1941. Series E, F, and G bonds have been on sale since May 1, 1941. For information on the terms and conditions of these bonds, see "Treasury Bulletin" issues for December 1947, page 31, and October 1945, pages A-4 and A-5.

In addition to the information on savings bonds operations which appears each month, data by denominations and dollar sales by States are published as of June 30 and December 31, covering the intervening months. Beginning with the figures through December 31, 1949, data by de-

nominations include both sales and redemptions in thousands of pieces, instead of sales figures alone, previously given in dollar volume at issue price. Redemptions by States were discontinued with the figures through June 30, 1949.

For dollar figures, sales are shown at issue price, and redemptions and amounts outstanding at current redemption values, except that Series G is shown at par. Matured bonds which have been redeemed are included in redemptions. Matured bonds outstanding are included in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Beginning with June 1947, Series E sales include unclassified sales consisting of Series E, F, and G. The amounts are substantially less than the sales reported as unclassified in the Daily Treasury Statement. The greater part of that item consists of sales for which information is available as to the series but not the year of issue. On the basis of that information such sales are included in this table according to series. Prior to June 1947, it was possible to distribute

by series all sales reported as unclassified in the Daily Treasury Statement.

2/ Series E redemptions include unclassified Series A-D redemptions beginning with October 1944, and also unclassified F and G redemptions, beginning with June 1947.

3/ Includes both matured and unmatured bonds; see Table 4.

* Less than \$500,000.

2/ Includes for each month redemptions of Series D-1940 which have matured

through that month. Outstanding matured bonds of this series, however, are included in the interest-bearing debt until all bonds of the series have matured.

3/ Includes redemptions not yet classified; see Table 3, footnotes 2.

TREASURY SAVINGS NOTES

Treasury savings notes (originally designated tax savings notes) have been issued in four series: Series A from August 1, 1941, through June 22, 1943; Series B from August 1, 1941, through September 12, 1942; Series C from September 14, 1942, through August 31, 1948; and Series D on continuous sale beginning September 1, 1948. Details concerning terms and conditions for purchase and redemption, and investment yields of Series D notes will be found in the "Treasury Bulletin" for October 1948, page A-1. Similar information concerning Series C notes will be found in the "Treasury Bulletin" for October 1945, pages A-4 and A-5. For details concerning terms and conditions, investment yields, and tax payment or redemption values

of Series A and B, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220, and for sales and redemptions by fiscal years and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

1/ Excludes trust departments.

2/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.

3/ Includes those banks and insurance companies not reporting in the Treasury Survey.

4/ United States savings bonds, Series D-1940 and 1941, E, and F, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.

5/ C. C. C. demand obligations in the amount of \$12 million, all held by commercial banks, are shown only in the total amount outstanding; holdings by reporting banks are not available.

6/ Holdings by reporting agencies not available.

7/ Excludes guaranteed securities held by the Treasury.

8/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.

9/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

10/ Includes F. H. A. debentures; see footnote 11.

11/ A small indeterminate amount of these debentures is partially tax-exempt.

12/ United States savings bonds sold prior to March 1, 1941, are partially tax-exempt; those sold on and after that date are taxable.

13/ The proprietary interest of the United States in these banks ended on June 26, 1947.

* Less than \$500,000.

TREASURY SURVEY - COMMERCIAL BANK OWNERSHIP, DECEMBER 31, 1949

The tables which follow provide an analysis of the security holdings of commercial banks reporting in the Treasury survey of ownership of securities issued by the United States Government and by Federal agencies. The figures show the total holdings distributed according to Federal Reserve member-bank classes and nonmember banks.

This analysis of commercial bank ownership was first published in the May 1944 issue of the "Treasury Bulletin", based on the survey data for December 31, 1943. It has appeared at semiannual or quarterly intervals since that time, and is now being published for the June 30 and December 31 survey data.

1/ Includes trust companies and stock savings banks but excludes securities held in trust departments; see page 36, footnote 2.

2/ United States savings bonds, Series D-1940 and 1941 and F, are shown at current redemption values. They were reported at maturity value by the banks included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.

3/ Excludes C.C.C. demand obligations in the amount of \$12 million, all held by commercial banks; data for reporting banks are not available.

4/ Issues which commercial banks may not acquire prior to a specified date (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.

5/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal

tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to both normal tax and surtax.

6/ Includes F.H.A. debentures; see footnote 7.

7/ A small indeterminate amount of these debentures is partially tax-exempt.

8/ United States savings bonds sold prior to March 1, 1941, are partially tax-exempt; those sold on and after that date are taxable.

9/ The proprietary interest of the United States in these banks ended on June 26, 1947.

* Less than \$500,000.

MARKET QUOTATIONS, JANUARY 31, 1950

Market quotations shown here are over-the-counter closing quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed in Section I include all public marketable securities issued or guaranteed by the United States Government except those not regularly quoted in the market. The issues excluded are postal savings bonds and Federal Housing Administration debentures. The latter are

the only public marketable interest-bearing guaranteed securities outstanding. Section II lists the public marketable securities issued by Federal agencies but not guaranteed by the United States Government. Daily quotations for the securities listed in Sections I and II are published monthly in the Treasury Department statement, "Prices and Yields of Public Marketable Securities Issued by the United States Government and by Federal Agencies".

Note: Treasury bonds included in the averages, beginning with December 1935, are those neither due nor callable for fifteen years. Prior to that time, for years shown in this table, the bonds included were neither due nor callable for twelve years. For a discussion of the composition of these averages, see the "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market as reported to the Treasury by the Federal Reserve Bank of New York, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does

- not sell, the price of the last preceding sale is used.
- 1/ For definition of taxable and partially tax-exempt bonds, see footnotes to the "Treasury Survey of Ownership", in this issue of the "Treasury Bulletin". The partially tax-exempt average was discontinued on December 15, 1945, because there were no longer any bonds in this category with fifteen or more years to maturity or first call.
- 2/ Average revised beginning November 1, 1944. Old average for November 1944 was 2.56%.
- 3/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%.
- 4/ Beginning December 21, 1949, the average includes nine bonds instead of ten, the Consolidated Gas Electric Light and Power Company of Baltimore 2-3/4 percent bonds of 1981 having been called and exchanged for a new issue.
- 5/ Market closed.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by collectors of internal revenue for collections by type of tax. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositaries. Reports of collections do not coincide because of a lag in deposits of collections. Detail by tax is reported on a collection basis because it is not available on the basis of deposits.

1/ Excludes collections for credit to certain trust accounts for Territories

and insular possessions, etc.; includes corporation income tax on Alaska Railroad.

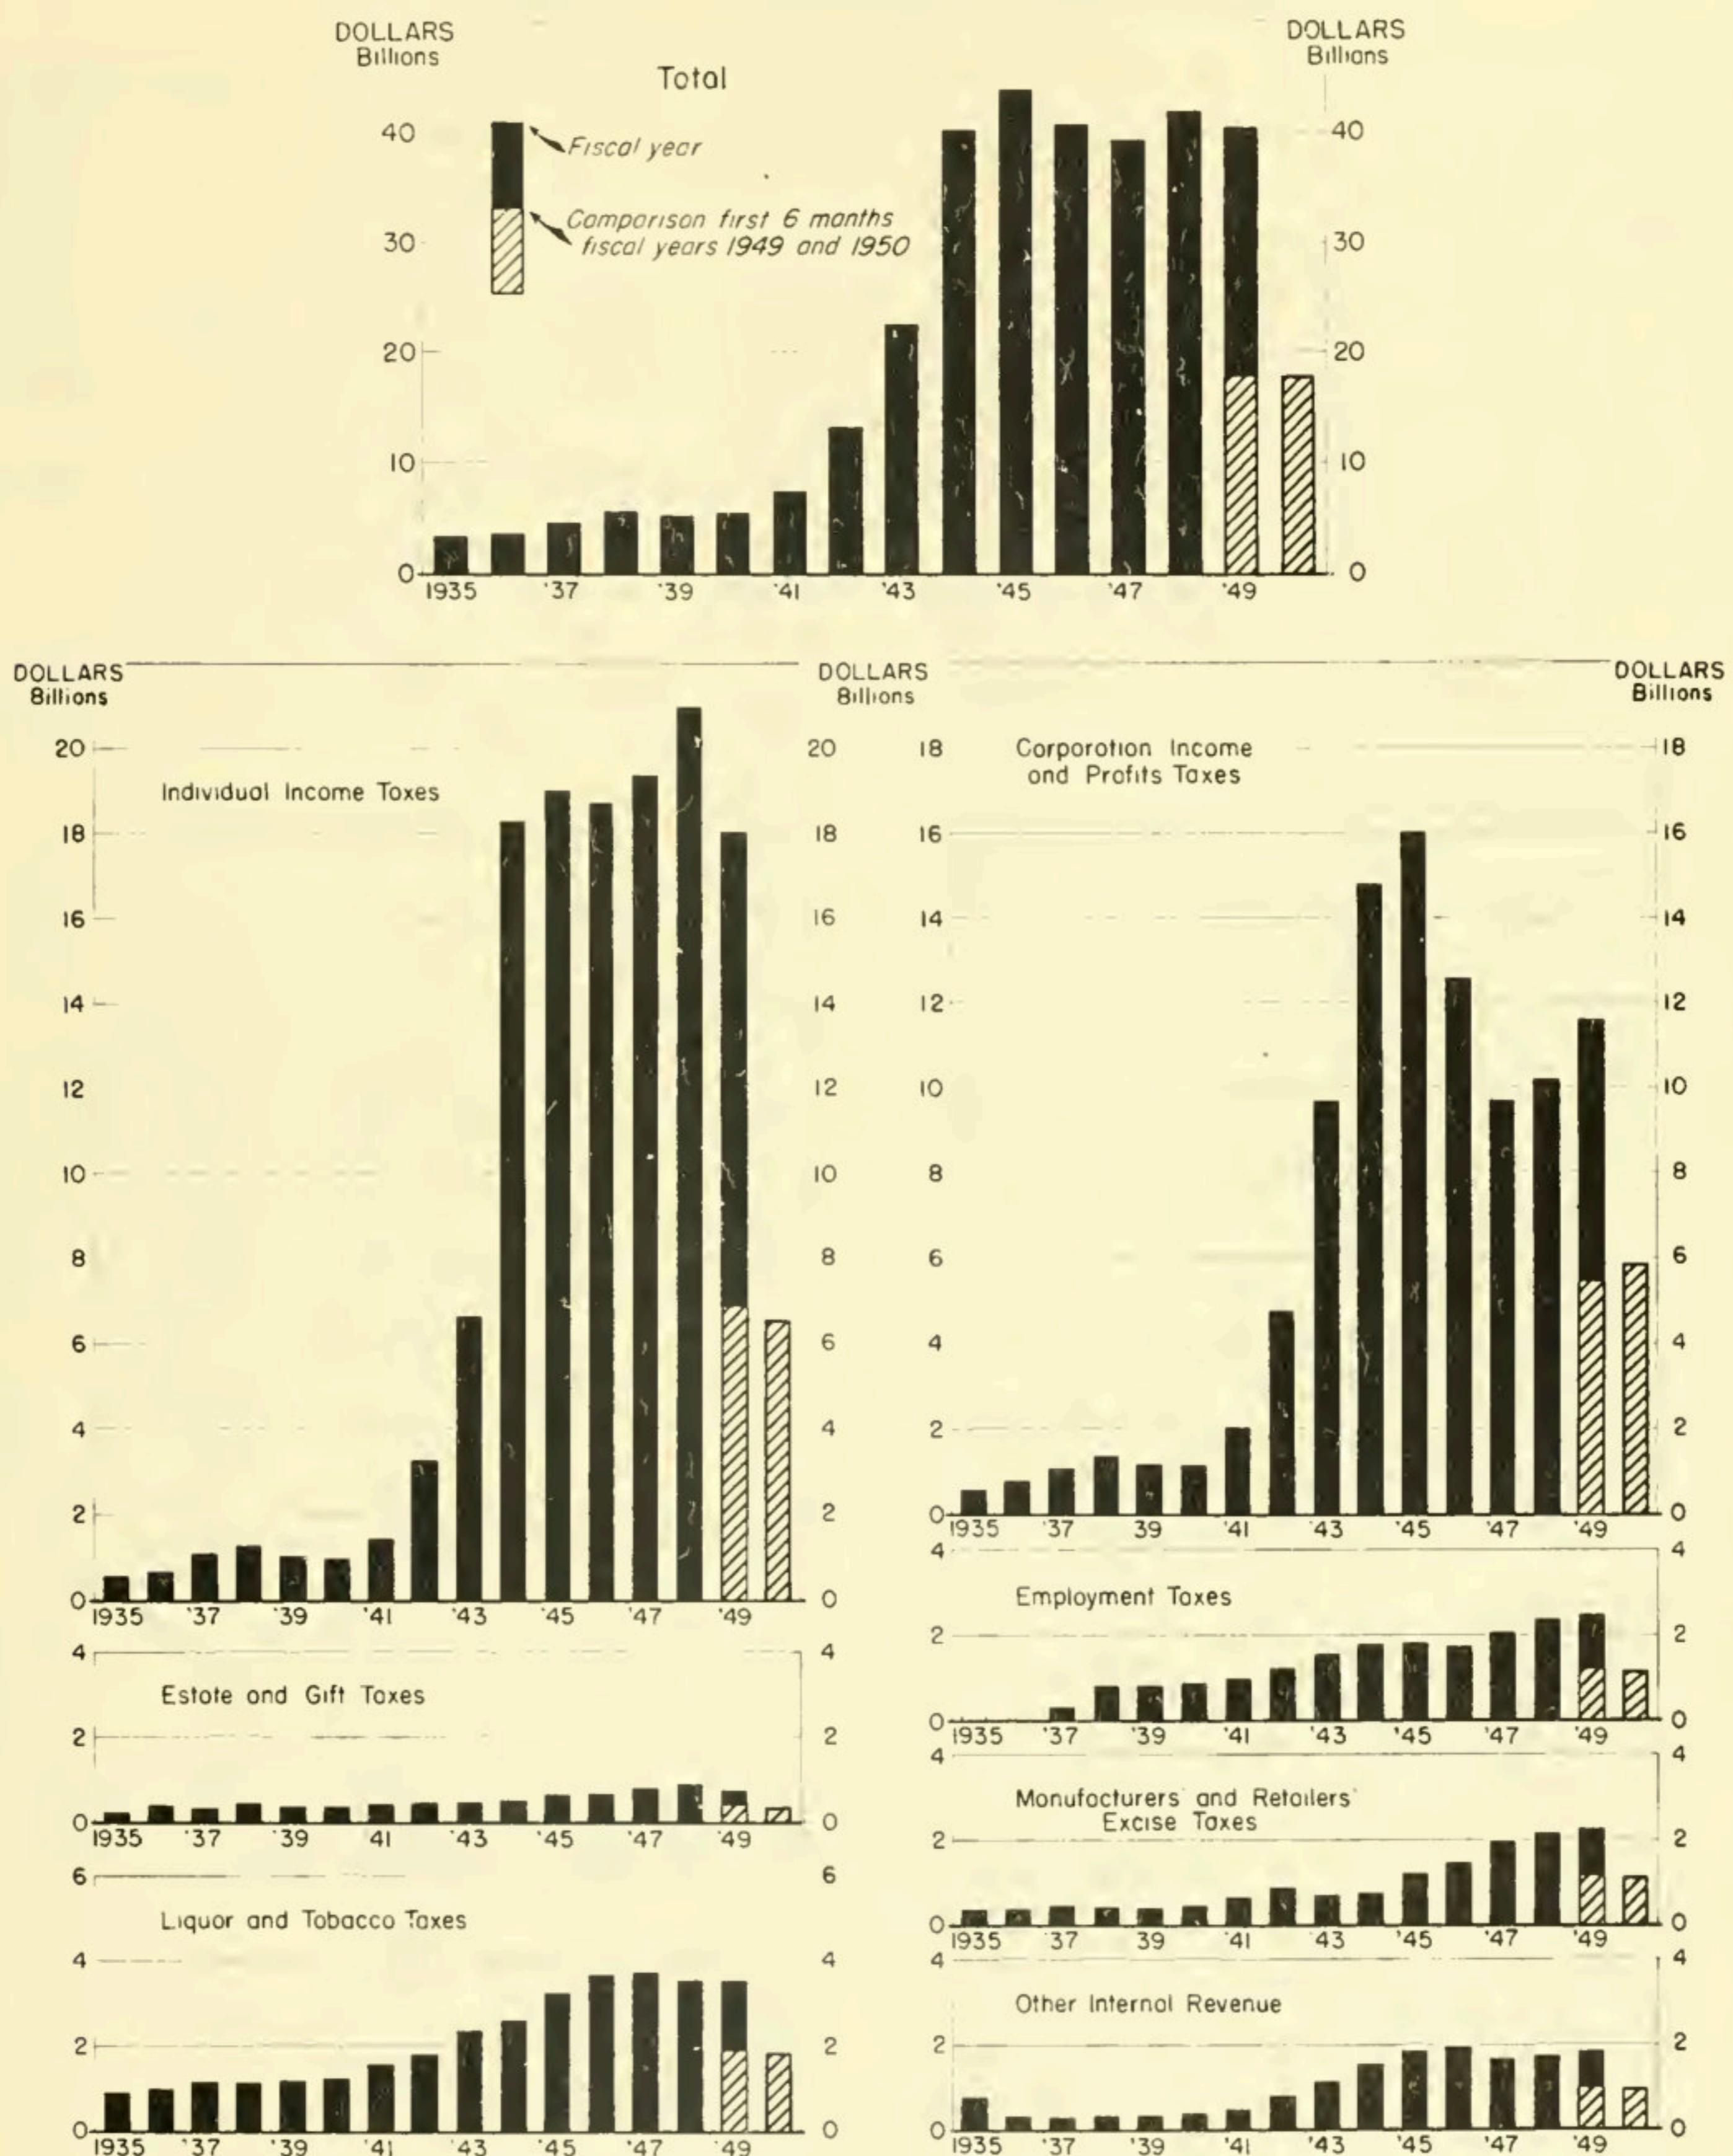

2/ Beginning with the fiscal year 1947, collections from the unjust enrichment tax, previously carried in this column, are included with other repealed taxes under "Miscellaneous".

3/ Repealed for years ending after June 30, 1945.

4/ Repealed taxes not separately shown are included under "Miscellaneous", beginning with figures for the fiscal year 1948.

CAPITAL MOVEMENTS

Monthly data relating to capital movements between the United States and foreign countries as reported by banks, bankers, and brokers throughout the United States appear in the first four sections of "Capital Movements". Supplementary data are presented at less frequent intervals in Section V. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

Section I contains the historical summary of principal types of monthly data on capital movements, beginning with 1935 when the information was first compiled. Section II supplies a summary by countries for recent months of the principal series. Section III presents data by countries for certain components of total short-term claims and liabilities and total long-term security transactions. This information is given for the latest month for which final figures are available. Similar information for the latest month for which preliminary figures are available is presented in Section III A. "Short-term" as used in all tables on capital movements refers to original maturities of one-year or less, and "long-term" refers to all other maturities. Section IV contains data for recent months on

outstanding contracts of banks for forward purchases and sales of foreign exchange.

The supplementary information in Section V is presented in two tables, appearing at different times. Table I gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. Table 2 supplies information by countries on long-term claims on and liabilities to foreigners as reported by banks and bankers in the United States. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942.

Publication of detailed figures in the monthly series on capital movements was discontinued between the March 1942 and the November 1945 issues of the "Treasury Bulletin", but data omitted during that period were supplied in the November 1945 issue and supplement.
