1/ Budget estimates as of June 1, 1941.

2/ Beginning with July 1940, amounts representing appropriations equal to collections of Social Security taxes under the Federal Insurance Contributions Act for old-age insurance (less reimbursements to the general fund for administrative expenses) are deducted from total budget receipts in the Daily Treasury Statement. These amounts are reflected under Trust Account receipts as net appropriations to the Federal Old-Age and Survivors Insurance Trust Fund. In the above statement, similar treatment has been accorded net transfers to the Federal Old-Age and Survivors Insurance Trust Fund (formerly Old-Age Reserve Account) made during the fiscal years 1937 to 1940, in order to facilitate comparison with the subsequent period.

3/ Revised to transfer U. S. Maritime Commission from "Other" to "National defense".

4/ Excludes items which were for national defense purposes as follows: (1) expenditures from appropriations for civil activities (including estimated cost of W.P.A., national defense projects) and (2) amounts expended by the Reconstruction Finance Corporation for loans and investments.

5/ Includes adjusted service certificates.

6/ Excludes subscriptions to capital stock of Federal Crop Insurance Corporation.

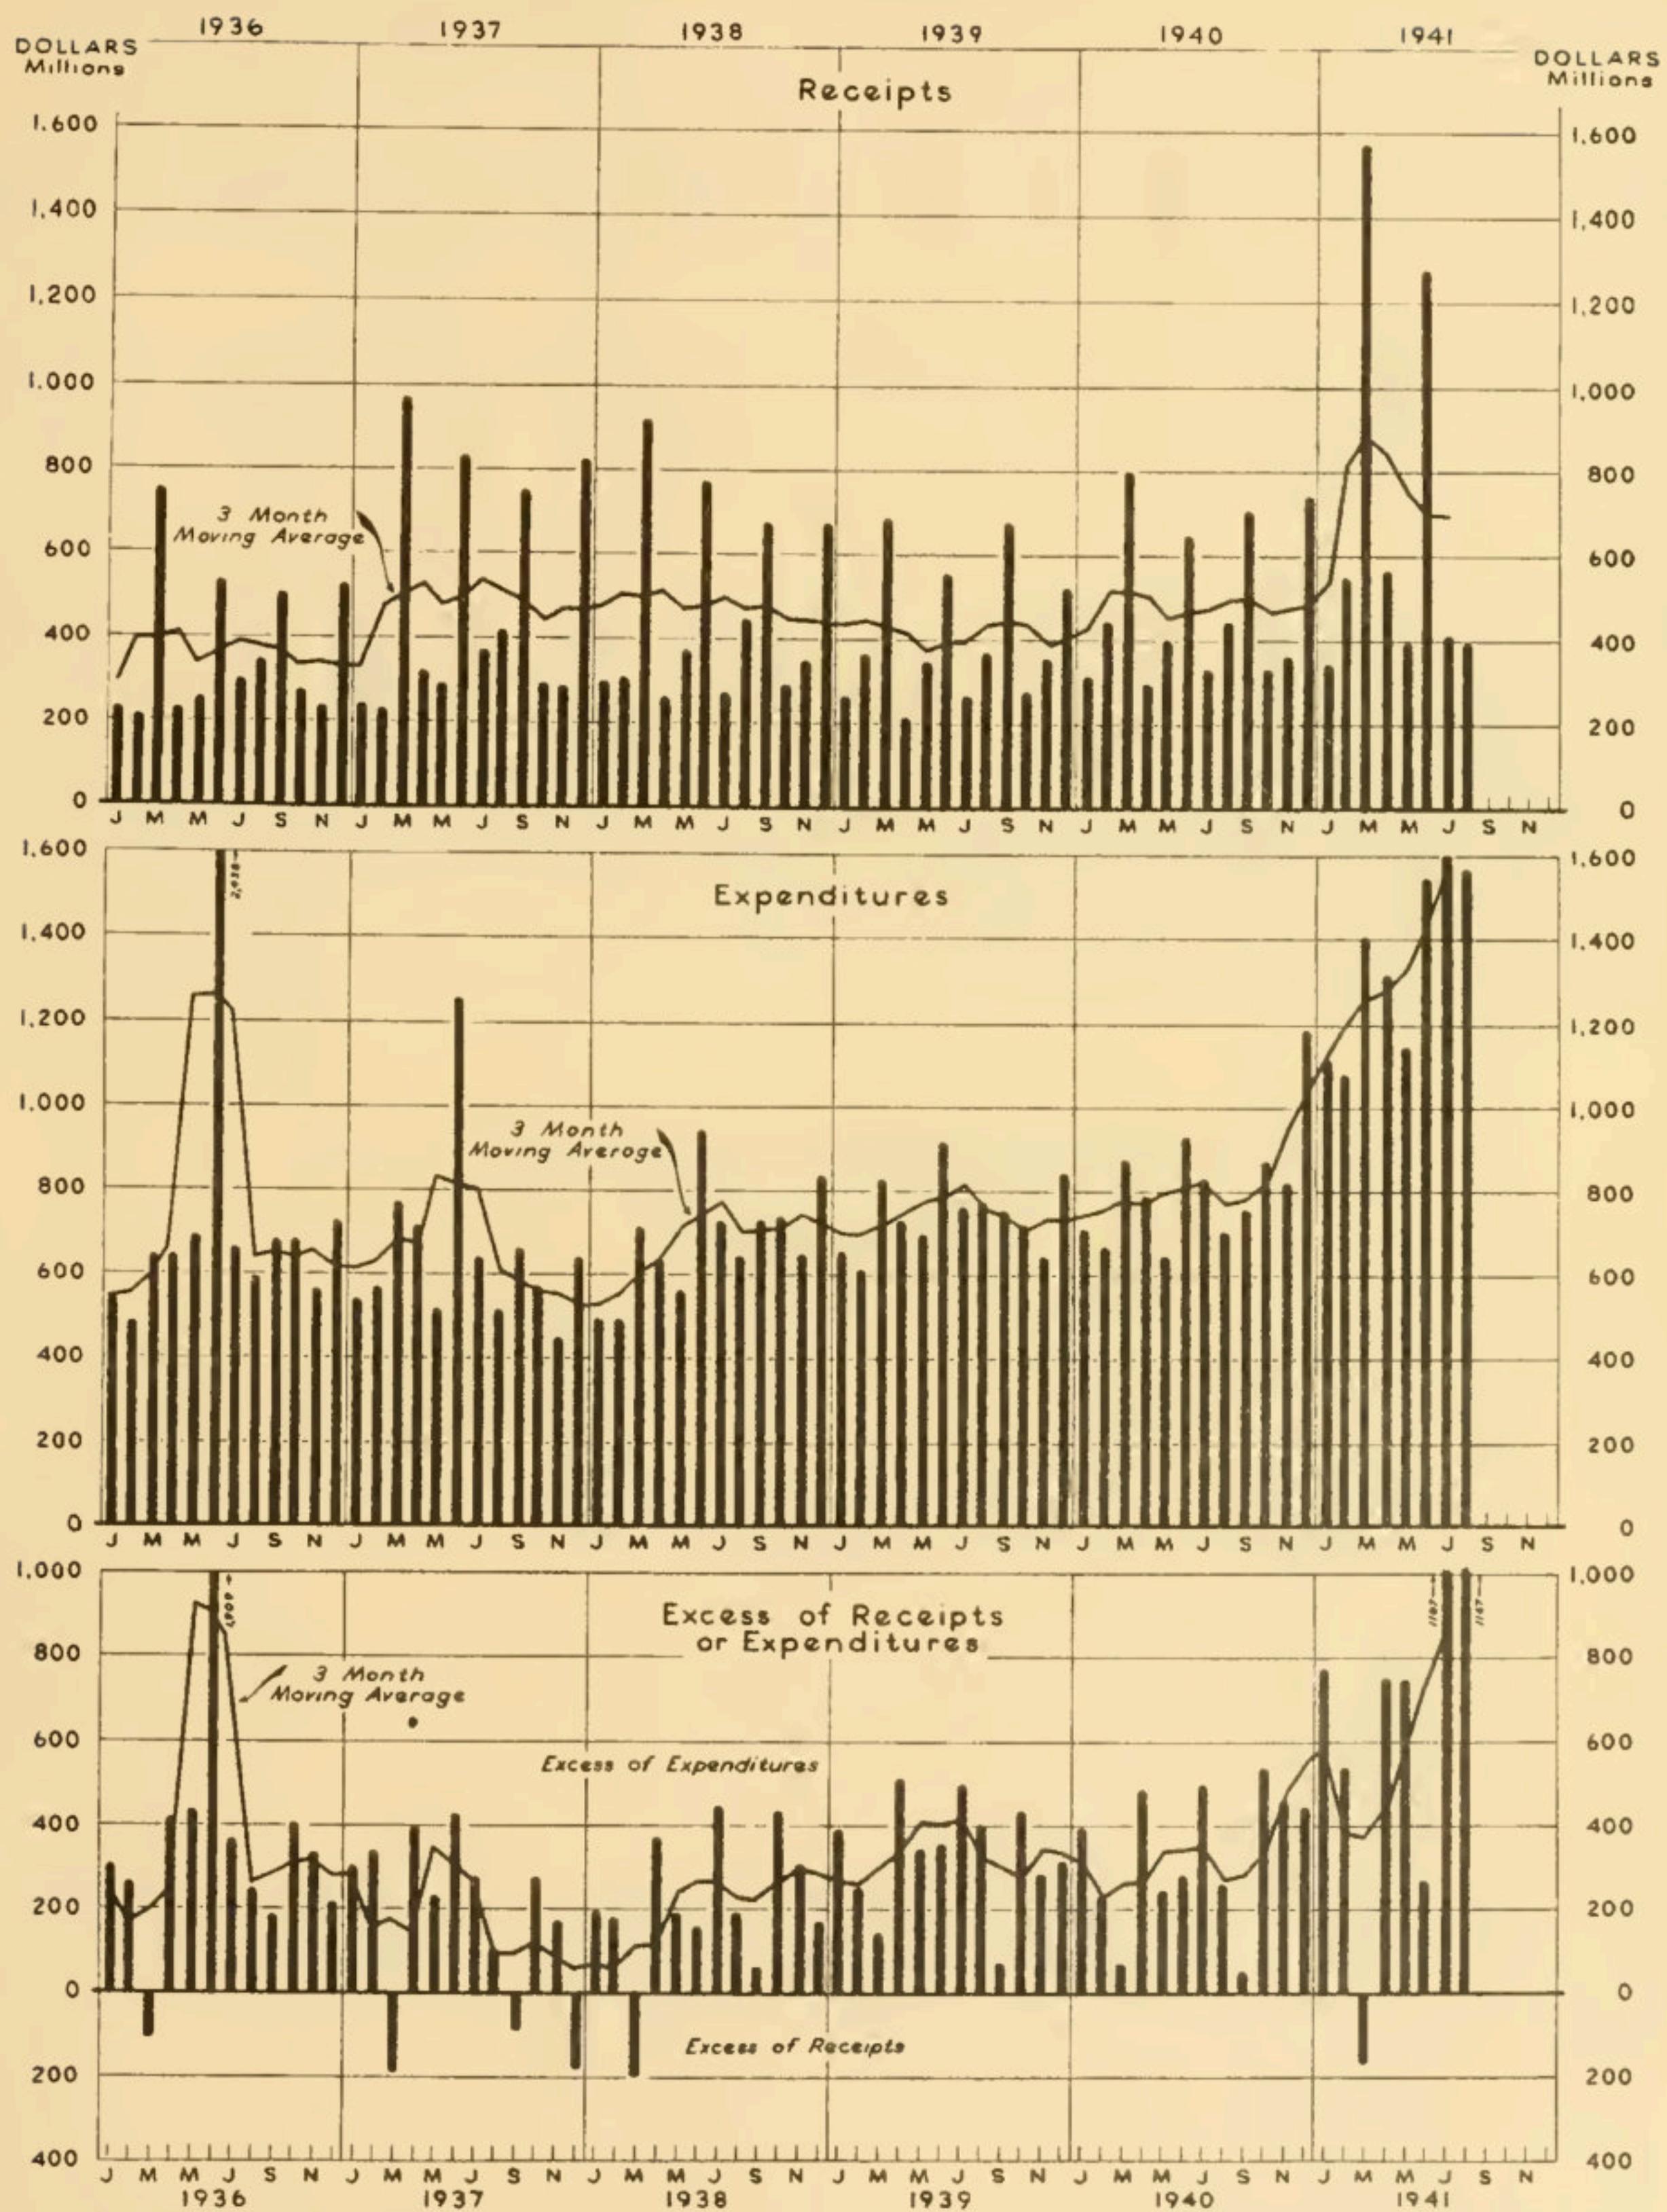

7/ Excludes loans shown under "Loans and stock subscriptions".

Basis of Computation: (1) Treasury bond yields are computed on the basis of the mean of bid and ask quotations in the over-the-counter market, beginning September 2, 1941; previously, closing prices on the New York Stock Exchange were used on days when sales took place on the Exchange in a particular issue and the mean of closing bid and ask quotations on the New York Stock Exchange on days when no sales took place. (2) Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

**Summary Data from Treasury Survey of Ownership of Securities  
Issued or Guaranteed by the United States, July 31, 1941**

The following tables present summary data from the Treasury survey, as of July 31, 1941, of the ownership of securities issued or guaranteed by the United States. The large commercial and savings banks and insurance companies covered in the survey account for approximately 95 percent of the holdings of United States Government and Government-guaranteed securities held by all banks and insurance companies in the United States. The holdings of the Federal Reserve Banks are included with those of U. S. Government agencies and trust funds this month for the first time. In previous months they were included with the amount "Held by all other investors"; therefore, the amounts shown under the latter caption this month are not comparable with the figures shown for earlier months.

CAPITAL MOVEMENTS BETWEEN  
THE UNITED STATES AND FOREIGN COUNTRIES

## Revisions in Statistics of Capital Movements between the United States and Foreign Countries

More complete information on security transactions between the United States and the United Kingdom has made it necessary to revise figures covering the "Movement in transactions in domestic securities" and "Movement in transactions in foreign securities" between this country and the United Kingdom. These revisions apply to the period February 22, 1940 through May 14, 1941 and are incorporated in the table showing "Net Capital Movement between the United States and Foreign Countries, 1935 through June 1941" which appears on page 50.

The additional information affects also the items "Total sales" and "Net purchases or sales" shown in the table on "Foreign Purchases and Sales of Domestic Securities", page 59. The necessary revisions have been made in the figures covering the period February 22, 1940 through May 14, 1941.

The new data also affect other items which appeared in previous issues of the "Bulletin of the Treasury Department" covering the period February 22, 1940 through May 14, 1941. These consist of the figures published under the headings of "Sales of domestic securities" and "Sales of foreign securities" in the table "Security Transactions as Reported by Banks, Bankers, Brokers and Dealers in the United States". Revisions of these earlier weekly figures will appear in a forthcoming issue of the "Bulletin".

<sup>1/</sup> Comprises criminal cases of the Alcohol Tax Unit of the Bureau of Internal Revenue, the Bureau of Customs, the Bureau of Narcotics, the Secret Service Division, and the income tax and miscellaneous tax cases referred by the Penal Division of the Bureau of Internal Revenue to the Department of Justice with recommendation for criminal prosecution.

<sup>2/</sup> Comprises cases transferred to state, local, or other authorities for prosecution and cases closed because of duplicate prosecutions.

<sup>3/</sup> Cases "otherwise disposed of" consist of Customs and Narcotics cases in which no arrests were made and Secret Service cases which were disposed of by lunacy hearings.

<sup>4/</sup> Insufficient cases to warrant showing comparative percentages.

<sup>5/</sup> Percentages do not add to 100 because a single conviction may involve more than one type of sentence.

<sup>6/</sup> Alcohol Tax Unit figures are based on cases in which a suspended or probationary sentence only was imposed.
